

Mapping Greater West Houston

2010 WEST HOUSTON DEVELOPMENT MAP Order Form

The West Houston Association is proud to announce the release and distribution of the *2010 West Houston Development Map*, in a larger size, covering more land area, with a new color aerial and with the same iconic land use colorations we pioneered showing land uses in the 1,000 square mile Greater West Houston area.

Every West Houston Association Member firm¹ will receive a copy of the Development Map in February.

Development Map Sample 1

The **Development Map** is available in both a large 50" x 42" wall mount size and a smaller 25 x 21" size convenient for carrying with you. Both versions of the Development Map will be printed on glossy paper.

The Association is also making available the **Aerial Map** in both the wall mountable and smaller sizes. This version has the same attributes as the Development Map except it does not have the commercial and residential land use coloration.
