

The **West Houston Association** Sustainability Stars Program recognizes qualified applicants for investigating, investing in, implementing, inspiring, and innovating in sustainable development in Greater West Houston. The goal of the Sustainability Stars Program is to gather insights into sustainable infrastructure so that WHA's members and the public recognize the value and challenges associated with sustainable infrastructure and development practices. WHA hopes that you will reach out to us so we can recognize you as an early adopter of these practices.

Visit our webpage below to submit an application before the August 1st deadline!
